

► Childbirth Education Classes

We offer a variety of classes to help you enjoy a healthy pregnancy and to help you through the birth of your baby. We offer classes on the following:

- First time mom and dad class
- Third trimester
- Lamaze
- Breast feeding
- Sibling class
- Mommy & Me class

For more information or to sign up for one of our childbirth education classes call 507-7731.

You and your baby's health are our highest priorities.

► Why choose LDS Hospital for your Women's and Newborn care?

Because for the last 100 years, LDS Hospital has provided our patients and the community with compassionate personal care, high-quality clinical outcomes, and a team of specialists — from nurses to maternal fetal medicine doctors — who make sure we're prepared to care for you and your newborn no matter what the circumstances.

We offer comprehensive, personalized care for all the stages of a woman's life and all the healthcare challenges a woman may encounter, including preventive, diagnostic, and treatment services related to breast care, heart disease, cancer, diabetes, urology, gynecology, obesity management, and cosmetic surgery.

► What our Women's and Newborn Program provides...

- Our women's center includes a birthing services that will assist with roughly 3,200 births per year.
- We offer the latest technology for women and newborns in a calm and healing environment.
- Large private rooms designed to accommodate families and newborns.
- Labor and delivery, maternal and newborn care including a special care nursery for premature infants and a partnership with Primary Children's Medical Center and Intermountain Medical Center's Newborn intensive care units.
- Labor & delivery rooms feature a family area that include a couch, tables and chairs, a rocker/recliner and an area designed for newborns with a built in infant warmer so babies can be closer to moms instead of in the nursery.
- Maternal Fetal Medicine specialists who practice and consult with other physicians.
- General and subspecialty gynecological care including oncology and urology services
- Breast mammography screening and diagnosis
