

## *Life Flight Outreach Education*

Outreach education is an important component of the services Life Flight provides EMS agencies and critical care providers. The following subjects are available to your agency for training:

### **General Medical**

- AMI and EKG Interpretation
- Basic Airway Management
- Advanced & Difficult Airway Management
- Capnography for EMS
- Cervical / Spinal Injuries and Immobilization
- Environmental Emergencies: Hypothermia & Frostbite / Heat Related Injuries
- Geriatrics
- Neurologic Assessment
- HAZMAT and Helicopter Operations
- Freshwater Drowning
- Sternal Intraosseous Device – FAST System
- Trauma Assessment
- Traumatic Brain Injury for EMS

### **Transport**

- Aircraft Communications for Public Safety Dispatchers
- Landing Zone Safety & Security
- Patient Packaging and Transportation
- Tarmac Safety: Interhospital Transports and EMS Operation
- Hospital Helipad Operations
- Hoist/Rescue Operations
- The Life Flight Experience...

- This is Life Flight... An Introduction to Life Flight Services.

### **Neonatal Specific Medical**

- Neonatal Resuscitation and Transport

### **Pediatric Specific Medical**

- ABC's of Pediatric Transport
- Pearls of Packaging – Pediatric Stabilization and Transport
- Pediatric Trauma Overview
- Pediatric Airway
- Assessing the Pediatric Patient

### **Other**

- Training on a subject not listed - we would be pleased to develop a training program to meet your requirements.
- Life Flight Aircraft or Life Flight Crew participation in a special event for your agency or community.
