

## Mission

We reveal and foster God’s healing love by improving the health of the people and communities we serve, especially those who are poor and vulnerable.

## Vision

Inspired by our faith, we will partner with our patients and communities to exceed their expectations for health.

## Values

- Caring Spirit** – We honor the sacred dignity of each person.
- Excellence** – We set and surpass high standards.
- Good Humor** – We create joyful and welcoming environments.
- Integrity** – We do the right thing with openness and pride.
- Safety** – We deliver care that seeks to eliminate all harm for patients and associates.
- Stewardship** – We are accountable for the resources entrusted to us.

# Dear Friends,

As we look back at a year that has been like no other, we first want to say thank you. **Thank you** for your support of St. Mary's Medical Center and our community. **You, and all of our supporters, helped us achieve our mission of improving the health of the people and communities we serve, especially those who are poor and vulnerable.**

And 2020 was a year which made us all vulnerable. Together, we experienced dramatic impacts on our daily lives and were touched in so many ways by the sadness, anxiety, and isolation that spread along with this virus.

At St. Mary's, our caregivers ran head-on into the fray, caring for our community every hour of every day, prioritizing the health of their patients ahead of personal security. As our healthcare providers worked tirelessly to care for every person who might need them, so too did our community come forth to care for them.

Throughout the pandemic, the St. Mary's Foundation was flooded with offers of aid. Local construction companies and hardware stores donated hundreds of pieces of Personal Protective Equipment; community organizations, church groups, and businesses donated thousands of meals and snacks for our healthcare workers; visitors gathered in parking lots to express their gratitude... We experienced innumerable stories of compassion, support and unity. Our community and associates pulled together to discover solutions, cared for one another and spread warmth and love, despite the invisible six foot barrier between us.

From treating COVID-19 patients, to caring for heart and stroke patients, to sharing in the joy of a new born infant, St. Mary's Medical Center has never wavered from its mission. None of this could have been possible without your generosity and support.

**Throughout the pandemic, the St. Mary's Foundation was flooded with offers of aid**

As we begin 2021, we do so with a renewed sense of hope and excitement as we continue to meet the challenges of COVID-19. But we know we will meet these challenges head on, together. Even though we may face an uncertain future, one constant remains – **you were there for us, and we will always be here for you.**

With gratitude,

Carmen Shipley, CFRE  
Executive Director

Monique Serra  
Chair, St. Mary's Foundation Board

# Meals on Wheels Delivers Hope, Safety & Compassion

In 2020, COVID-19 drastically affected the lives of our most vulnerable seniors, but the St. Mary's sponsored Meals on Wheels program remained on the front lines delivering hope, safety, and compassion.

For over 50 years, this crucial program has provided lunchtime meals to hundreds of seniors each week in Mesa County. But last year, the program saw an unprecedented increase as a result of the COVID-19 pandemic.

With 28 routes throughout the Grand Valley, Meals on Wheels volunteers delivered over 160,000 meals (550 or more per day) to the frail and homebound elderly in our community. This was an increase of almost 30,000 from the prior year.

The increased demand also meant an increase in needed funding to run the program. "We are very fortunate to be sponsored by St. Mary's. They provide \$250,000 in in-kind support each year, but all direct costs of the program are paid with contributions from individuals, businesses, and grants," says Amanda DeBock, program manager.

In response to COVID-19, the program also had to change its practices to protect both customers and volunteers — many of whom are elderly themselves, and thus in the high-risk group for the virus.

## The daily food deliveries are also an important safety check for our seniors

Home-delivered meals are now bagged and left on door handles for a contact-free delivery and, of course, volunteers are required to wear masks and keep a safe distance. While the pandemic forced Meals on Wheels to close its nine onsite dining halls, drive-through pickup options began taking place in some of those locations. Other sites continued to provide meals in other ways. When onsite meals were discontinued at the Fruita Community Center, an employee began driving to Grand Junction to pick up the food, which she'd then deliver to those who used to come to Fruita's dining hall. Meals on Wheels also partnered with local restaurants for food pick-ups. Both the Palisade Café and 13° Brix Cider Bistro helped to keep Palisade seniors fed when their local dining site closed.

A Meals on Wheels client picks up their meal from the 13° Brix Cider Bistro.

A volunteer delivers a home meal.

Pre-pandemic, drivers often arrived a little early for a cup of coffee and perhaps a pastry, visiting with one another in the conference room before leaving on their routes. Now, any mingling takes place outdoors in the parking lot, at a distance, and with masks on.

The program's volunteers also serve as an extra pair of eyes on a vulnerable population. "The daily food deliveries are also an important safety check for our seniors," explains DeBock. "Recently, one of our driver's called the police department after the elderly woman that lives there didn't wave from the window as usual. They discovered she had fallen and had not been able to get up for three days!"

The Meals on Wheels organization has been serving smiles since 1950,

while meeting the nutritional and social needs of our most vulnerable population. Vivian Harris, a meal recipient says, "I'm so grateful to these guys. They've been so good to us. They're a blessing in my life."

# Donations to St. Mary's Emergency Relief Fund support COVID-19 Response

Emergency relief funds purchased 40 respirator masks for CareFlight

After recovering from COVID-19, Erin Fleming, a St. Mary's nurse, wanted to do what she could to help others and donated her plasma as part of the Convalescent Plasma Therapy Program.

Around the world COVID-19 brought individuals, businesses and organizations together in a united effort. We saw the same happening right here in our own community as St. Mary's Medical Center was fortunate to be the recipients of such an outpouring of solidarity and support by our community.

The St. Mary's Foundation worked quickly to establish the St. Mary's Emergency Relief Fund in April of 2020 in response to the pandemic. "Early on in the pandemic we began receiving calls from all of over the country from people asking how they could help," explains Carmen Shipley, Executive Director of the St. Mary's Foundation. "Their contributions to this fund enabled us to offer immediate aid for unexpected pandemic related expenditures." The first donation received was a generous contribution from the Dalton Family Foundation, a family originally from the Telluride area but who now live in various locations across the country. "Our family has long considered the western slope home in many respects. My parents brought us to Telluride in 1986, my brother Erik has called the valley home for over 20 years, and it is where we all fell in love with skiing, fly-fishing, and mountain biking. It's a part of the world that's near and dear to our hearts," said Chris Dalton. "Given the benevolence and hospitality the people of western Colorado have continually extended our family over the decades, we [wanted] to show our support to the communities that are treated by the Hospital. Thanks to the entire staff at St. Mary's Medical Center for all

you do to meaningfully change the quality of people's lives."

Since its creation, the Fund has been utilized to support the Hospital's COVID-19 related needs including personal protective equipment for caregivers, screening and testing supplies, facility modifications, and other needs as they arose.

Chevron also contributed to the Emergency Relief Fund and helped to fund the purchase of 40 respirator masks for the CareFlight of the Rockies air trauma teams. Each mask includes a special apparatus to assure all inhaled air is filtered properly and incorporates a microphone that connects to their flight helmets.

"We wanted to find a way to say thank you to the staff at St. Mary's Medical Center who continue to amaze us with their resilience and dedication to the community," stated Andy Olson, Chevron operations superintendent. "We are proud to support this worthy organization."

Emergency Relief funds also aided St. Mary's in launching the Convalescent Plasma Program. At the onset of the pandemic, St. Mary's Blood Center began accepting blood plasma donations from recovered COVID patients in order to give severely ill COVID patients an infusion of antibody-rich plasma.

# Philanthropic Couple Pays It Forward

## The Kathleen W. McGinniss-Feinzig, MD & Herbert J. Feinzig Education Endowment

Both Herb and Kate Feinzig place a very high value on education.

Herb grew up the son of immigrants in a working class neighborhood in Brooklyn, New York. Because of a unique New York scholarship program, he was able to attend Brooklyn College essentially tuition free. This remarkable opportunity compelled Herb to provide the same opportunity for higher education to others. "Scholarships enabled me to succeed in a way I would not have otherwise without that college degree," says Herb. He truly believes that it's his obligation to pay back the community for his education because he was granted so much from it.

While Kate didn't utilize scholarships when she was working toward her medical degree, she is forever grateful for the financial support she did receive from her family and other sources, and she wholeheartedly shares Herb's beliefs. Kate explains, "By having a college degree, a person has many more choices in life. Getting an education gives them additional opportunities they may not have had without that education."

The Feinzigs say that their choice to invest in St. Mary's Medical Center came easily. By establishing St. Mary's Medical Center's first scholarship endowment, they are excited to combine their interests in education and medicine. Herb has experienced the excellent level of care at St. Mary's first-hand, and Kate, as a pathologist with a specialty in cytopathology, was drawn to St. Mary's after discovering that fellow

cytopathologist, Dr. Geno Saccomanno, did much of his legendary groundbreaking work during his tenure at St. Mary's. They strongly believe in St. Mary's mission and feel that "St. Mary's serves the community exceptionally well. That excellence in care comes from having well-educated and committed staff," explains Kate.

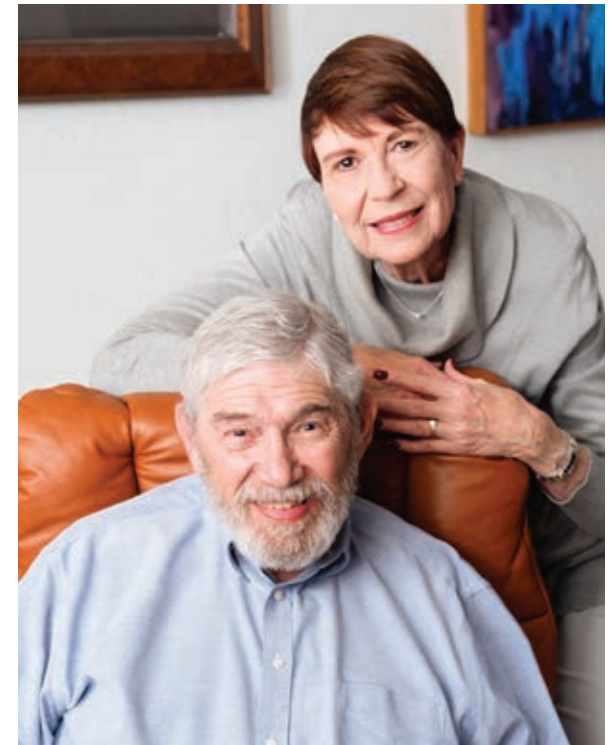

**By having a college degree, a person has many more choices in life. Getting an education gives them additional opportunities they may not have had without that education.**

Serving the community is another reason the Feinzigs see real value in providing scholarships. Twenty years ago, after living most of their lives on the east coast, the Feinzigs moved to Carbondale, Colorado. As much as they loved living in the Roaring Fork Valley, they eventually needed to move to a milder climate for health reasons but wanted to stay in Colorado. Once they discovered the Grand Valley, they quickly fell in love with the community. Herb and Kate believe that recipients of scholarships go on to help others in the community and beyond. "The recipients improve their lives, their children's lives and all those that are touched by their successes," explains Herb.

Kate and Herb also want to inspire others to pay it forward and hope that the establishment of a

scholarship fund at St. Mary's will set an example for others to invest in the mission. "We encourage others to contribute," says Kate. You're not just helping one person or one organization, but the whole community."

The Kathleen W. McGinniss-Feinzig MD & Herbert J. Feinzig Education Endowment will provide scholarships to St. Mary's associates seeking post-secondary education in the medical field, with a preference for minority or non-traditional students who can demonstrate financial need.

# Hearts for our Healthcare Workers

In the fall, we invited our community to join us in showing support to our healthcare heroes while raising vital funds for St. Mary's Medical Center. Dozens of businesses and individuals answered that call by contributing \$125,000 in honor of the many nurses, doctors and other St. Mary's staff that have worked tirelessly to make sure we are available for every person who might need us. *From every healthcare worker we served we say, "Thank you."*

# Ways to Give

St. Mary's Hospital Foundation gratefully accepts gifts to support St. Mary's Medical Center's mission. No gift is too small, and your gift will be used for the project or program of your choice. Your contributions are tax deductible, and you will receive a letter of acknowledgment for tax purposes. Donors have the option to be publicly recognized in a number of ways in our hospital.

## Donate by Mail or Phone

Donations are accepted over the phone at 970-298-1954 or by mail at:

St. Mary's Hospital Foundation

2635 N 7th St

Grand Junction, CO 81501

Payments Accepted: Cash, Check, Credit/Debit Card, Cashier's Check or Money Order

## Online Giving

Visit [www.stmarygj.org/aboutfoundation](http://www.stmarygj.org/aboutfoundation) to make a secure, online donation today with a credit or debit card. One-time and recurring payment options are available.

## Planned Giving

Planned gifts provide resources that create extraordinary opportunities and preserve our future. Planned gifts include cash and pledge gifts of bequests, trusts, life insurance, and retirement assets.

## Corporate Giving

Help your company and your employees make an impact here in western Colorado. Get involved with the Hospital Foundation through contributions, grants, or events via Corporate Gifts and Sponsorships.

## Foundation and Corporate Grants

We welcome the opportunity to work with foundations and corporations on philanthropic grants to the Hospital Foundation.

## Stocks and Appreciated Securities

One way to boost your charitable contributions is to give shares of appreciated stock instead of cash. They are easily valued without an appraisal and easy to transfer. Donating appreciated securities before they are sold typically results in a tax advantage. A tax deduction is normally allowed based on the market value at the time of the gift. Since the deduction is based on current value, rather than cost, no tax is paid on the appreciation.

## Tribute Gifts

Tribute gifts are given in honor or memory of a special person – perhaps a caregiver, family member, or friend. They are given in thoughtful remembrance of a life; in recognition of a special occasion; or in appreciation of service. These tributes serve as a permanent expression of love, honor, and recognition.

## Endowments

Endowments are invested for growth and income in a diversified portfolio and are strategically managed. Each endowment distribution is used according to the donor's intent as outlined in a formal agreement between the donor and the Foundation. Funds earned from an endowment may support a program and are distributed to the hospital annually in accordance with the policies established by the Hospital Foundation.

## Real Estate

The Hospital Foundation accepts gifts of real estate, including houses, condominiums, commercial properties, farm land, rental property, and undeveloped land after a thorough review of the property and its potential usage by the Foundation.

2635 N 7th St | Grand Junction, CO 81501
