

INTERNSHIP PROGRAM TABLES

Date Program Tables are updated: July 29, 2022

Program Disclosures

As articulated in Standard I.B.2, programs may have “admission and employment policies that directly relate to affiliation or purpose” that may be faith-based or secular in nature. However, such policies and practices must be disclosed to the public. Therefore, programs are asked to respond to the following question.

Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, provide website link (or content from brochure) where this specific information is presented:	

Internship Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program’s policies on intern selection and practicum and academic preparation requirements:

The Primary Children’s Hospital (PCH) Psychology Internship Program is a practitioner-scholar program within a pediatric behavioral health environment. Interns complete at least 2000 hours over the course of 12 months. We accept six interns each year and have five different rotation combinations (and five separate APPIC match codes), emphasizing different areas of pediatric and child clinical psychology. One of the interns completes a year-long rotation within our Med Psych Eccles outpatient clinic, including training in medical psychology specialty clinics and on the consultation-liaison service. One of the interns completes a year-long rotation within our Med Psych Eccles outpatient clinic, training in neuropsychology, and on the consultation-liaison service. One of the interns completes a year-long rotation within the hematology/oncology unit, our Med Psych Eccles outpatient clinic, and training on the consultation-liaison service. Two of our interns complete year-long rotations at Primary Children’s Outpatient Behavioral Health (PCOBH) and complete psychological assessments within our Behavioral Health Continuum. One intern completes a year-long rotation within our child and adolescent day treatment programs and inpatient program. As a cohort, all interns participate in a variety of didactics, seminars, and supervision experiences. There are abundant opportunities—across all rotations—for developing competence in psychotherapy, assessment, consultation, and other practice areas related to health service psychology.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes		Amount: 400
Total Direct Contact Assessment Hours	Yes		Amount: 100

Describe any other required minimum criteria used to screen applicants:

We encourage applicants who have emphasized child clinical and/or pediatric psychology training as part of their doctoral program. All coursework must be completed, and we require any comprehensive exams and dissertation proposals to be completed prior to the start of internship. We encourage PhD and PsyD applicants from clinical, counseling, and school psychology programs. Minority and culturally diverse candidates are strongly encouraged to apply.

--

Financial and Other Benefit Support for Upcoming Training Year*

Annual Stipend/Salary for Full-time Interns	\$32,000	
Annual Stipend/Salary for Half-time Interns	N/A	
Program provides access to medical insurance for intern?	Yes	
If access to medical insurance is provided:		
Trainee contribution to cost required?		No
Coverage of family member(s) available?	Yes	
Coverage of legally married partner available?	Yes	
Coverage of domestic partner available?	Yes	
Hours of Annual Paid Personal Time Off (PTO and/or Vacation)	200	
Hours of Annual Paid Sick Leave	N/A	
In the event of medical conditions and/or family needs that require extended leave, does the program allow reasonable unpaid leave to interns/residents in excess of personal time off and sick leave?	Yes	
Other Benefits (please describe): Interns are full employees of Intermountain Healthcare and receive the same benefits as other employees. However, rather than having to accrue time off, interns receive the following leave benefits for the year: 10 holidays (as all employees) and 15 days PTO (vacation, sick, and all-purpose leave). *2 additional days for conference or dissertation defense leave may also be approved. As employees, interns are eligible for numerous other discounts, wellness incentives, and other benefits.		

*Note. Programs are not required by the Commission on Accreditation to provide all benefits listed in this table

Initial Post-Internship Positions

(Provide an Aggregated Tally for the Preceding 3 Cohorts)

	2019-2022	
Total # of interns who were in the 3 cohorts	15	
Total # of interns who did not seek employment because they returned to their doctoral program/are completing doctoral degree	0	
	PD	EP
Academic teaching	0	0
Community mental health center	1	0
Consortium	0	0
University counseling center	0	0
Hospital/Medical Center	9	0
Veterans Affairs Health Care System	0	0
Psychiatric facility	0	0
Correctional facility	0	0
Health maintenance organization	0	0
School district/system	0	1
Independent practice setting	4	0
Other	0	0

Note: "PD" = Post-doctoral residency position; "EP" = Employed Position. Each individual represented in this table should be counted only one time. For former trainees working in more than one setting, select the setting that represents their primary position.
