

As part of the transitioning to adult care process, you will need to find an adult diabetes provider prior to your last pediatric diabetes visit.

- ☐ Identify a new adult diabetes provider. Call your insurance company to obtain a list of providers in your network.
- ☐ Most adult diabetes clinics require a referral and medical notes sent prior to scheduling an appointment. For a referral, contact Primary Children's Diabetes clinic with the new provider's name and fax number by one of the following:
 - ☐ Sending a message through the Intermountain Health Patient Portal
 - ☐ Calling 801-662-1640 Option 4
- ☐ Schedule an appointment with your chosen adult diabetes provider. (We recommend doing this 3-6 months before your last pediatric diabetes appointment, as many adult providers are booked out for several months.)

QR Code to download patient portal app on either iPhone or Android.

At your last pediatric diabetes visit with the Primary Children's Diabetes Clinic, we will ensure your prescriptions will be updated for the next six months.

UTAH ENDOCRINE & DIABETES ADULT PROVIDERS

NORTHERN UTAH
