

## Where Do I Go for My Sleep Study?

1. Park in the north parking terrace near the hospital's north entrance (main lobby).
2. Check in at 8 p.m. at the north entrance security desk where a sleep technician will greet and escort you to Sleep Lab 1 or 2.
3. There are several large unloading spaces in front of the north entrance that you may use if you have equipment to carry in. Please do not park on the south side of the hospital, as the south entrance doors are locked in the evenings.
