SIDS Awareness Month | October 2021

Oct 7 We're Not in Kansas Anymore: Human Reasoning and Diagnostic Study

Joe Grubenhoff, MD, MSCS
Associate Professor of Pediatrics
Section of Emergency Medicine
University of Colorado
Medical Director – Diagnostic Safety Program
Children's Hospital Colorado
Aurora, CO

Objectives

- Compare the basic attributes of System 1 and System 2 thinking and describe their role in diagnostic reasoning.
- Describe how theories of human reasoning inform our understanding of the development of clinical expertise.
- List three techniques for promoting diagnostic safety during a clinical encounter.

Oct 14 3rd Annual Robert D. Christensen MD Endowed Lecture in Neonatal-Perinatal Medicine: Red Cell Transfusions and Necrotizing Enterocolitis

Akhil Maheshwari, MD, MBBS
Professor of Pediatrics
Johns Hopkins University School of Medicine
Co-founder, Global Newborn Society
Editor-in-Chief, the Journal *Newborn*
Baltimore, MD

Objectives

- Evaluate current evidence for the association between anemia, RBC transfusions, and NEC
- Review potential mechanisms for the observed association between RBC transfusion-related NEC
- Discuss clinical considerations for RBC transfusions in premature infants.

Oct 21 Germs Antibodies, and God: The Intersections of Religion and Vaccination

Joshua T.B. Williams, MD, FAAP
Assistant Professor of Pediatrics
University of Colorado Denver School of Medicine
General Pediatrician, Ambulatory Care Services
Denver Health & Hospital Authority
Research Scientist, Center for Health Services Research
Office of Research, Denver Health & Hospital Authority
Denver, CO

Objectives

- Review empirical and historical research at the multi-level intersections of religion and vaccination.
- Discuss studies' implications for clinical and vaccination policy in the 21st century.

Oct 28 Complex Surgical Decision-Making for Children with Medical Complexity (CMC)

Jill Sweney, MD, MBA
Associate Professor of Pediatrics
University of Utah School of Medicine
Interim Division Chief of Pediatric Critical Care
Chair of Medical Ethics
Primary Children's Hospital

Objectives

- Describe the natural history of neuromuscular scoliosis in Children with Medical Complexity (CMC), and understand the risks, benefits, and clinical considerations regarding surgical intervention.
- Discuss shared-decision-making processes among medical and surgical teams and parents, as they relate to complex spine surgeries for CMC.

Jody Lin, MD, MS
Assistant Professor of Pediatrics
University of Utah School of Medicine
Division of Pediatric Hospital Medicine
Primary Children's Hospital

John Smith, MD
Professor of Orthopedics
University of Utah School of Medicine
Mary Scowcroft Peery Presidential Endowed Chair
in Orthopedics
Primary Children's Hospital

Nancy Murphy, MD
Professor of Pediatrics
Adjunct Professor of Physical Medicine
and Rehabilitation
University of Utah School of Medicine
Chief, Division of Complex Care
Primary Children's Hospital
