Nutrition Month March 2022

March 3 Expanding Newborn Screening for Pompe and MPS I

Kim Hart, MS, CGC

Utah Department of Health
Adjunct Assistant Professor, Department of Pediatrics, University of Utah

Nicola Longo, MD, PhD

Professor and Chief, Medical Genetics
Department of Pediatrics, University of Utah

Dave Viskochil, MD PhD

Professor, Medical Genetics
Department of Pediatrics, University of Utah

Objectives

- Describe the clinical presentation, diagnosis, and therapy for mucopolysaccharidosis type 1 and Pompe disease
- Describe the process of newborn screening for mucopolysaccharidosis type 1 and Pompe disease

March 10 Drug Resistant Epilepsy: Updates in Medical and Surgical Interventions

Robert Bollo, MD, MS, FAANS, FACS, FAAP

Associate Professor
Division of Pediatric Neurosurgery
Department of Neurosurgery
University of Utah School of Medicine
Surgical Director, Pediatric Epilepsy Program
Primary Children's Hospital

Objectives

- Review the burden of drug-resistant epilepsy on the individual, healthcare system, and societal levels
- Review existing and upcoming medical therapies, as well as advanced curative and palliative surgical techniques

Matthew T. Sweney, MD, MS

Associate Professor
Division of Child Neurology
Departments of Pediatrics and Neurology
University of Utah School of Medicine
Medical Director, Pediatric Epilepsy Program
Primary Children's Hospital

March 17 Annual Experience of Care Lecture: A Patient and Family Centered Initiative to Improve the Care and Communication with Families, Support Safety, and Promote Trauma Informed Care

Stanley E. Brewer, DO

Child and Adolescent Psychiatrist
Medical Director, Med Psych Programs
Division of Pediatric Behavioral Health
Department of Pediatrics
University of Utah School of Medicine
Primary Children's Hospital

Objectives

- Describe the need for increased situational awareness around patients with risks for behavioral escalation
- Describe the de-escalation screening and action plan for patients admitted to the hospital at Primary Children's Hospital

Elizabeth S. Vukin, MD

Assistant Professor
Division of Pediatric Hospital Medicine
University of Utah School of Medicine
Primary Children's Hospital

Victoria L. Wilkins, MD, MPH

Associate Professor
Division of Pediatric Hospital Medicine
Department of Pediatrics
University of Utah School of Medicine
Primary Children's Hospital

March 24 Challenges and Opportunities in Pediatric Post-Transplant Lymphoproliferative Disease (PTLD)

Zeinab A. Afify, MD

Associate Professor
Division Pediatric Hematology/Oncology
Department of Pediatrics
University of Utah School of Medicine

Objectives

- Outline pathophysiology and diagnosis of PTLD
- Discuss current prevention and treatment guidelines for PTLD
- Discuss international collaboration in PTLD

March 31 Doctors Day Celebration: Pathologic Basis of Disease Annual Lecture: Clonal Neoplasms of the Histiocytes: From X to BRAF

Jennifer Picarsic, MD

Co-Director of Histiocytosis Center and Pediatric Pathologist,
Cincinnati Children's Hospital Medical Center
Associate Professor - Clinical Affiliate,
Department of Pathology,
University of Cincinnati College of Medicine

Objectives

- Recognize that Langerhans cell histiocytosis, juvenile xanthogranuloma family, and Rosai-Dorland-Destombes disease are clonal neoplasms often driven by mutations in MAPK-pathway
- Discuss how BRAF V600E drives Langerhans cell histiocytosis pathophysiology
