Grant Scott Bonham Fetal Center Patient Referral Process

Referring provider determines patient needs to be seen at GSB Fetal Center

*We must have a referral from a Maternal-Fetal Medicine or OB/GYN Provider to schedule a patient in the GSB Fetal Center. This allows us to provide the proper follow-up for the patient.

Provider has ICentra access

YES

**Fetal Heart**
Provider places an order in ICentra for fetal echo

**Fetal Center**
Provider sends a message log to Primary Children’s Fetal Clinic Admin with the following:
- Diagnosis
- When the patient needs to be seen
- Why the patient needs to be seen

NO

**Fetal Heart and Fetal Center**
Provider to send referral form with required patient information to the GSB Fetal Center via fax (801) 442-0570 or email PC-utahfetalcenter@imail.org

*If a patient is from out of state, the provider may request a referral by directly contacting one of our providers. The providers need to give the following information to the nurse coordinators to schedule at a minimum:
- Name
- Date of Birth
- Diagnosis
- When the patient needs to be seen
- Why the patient needs to be seen

The nurse coordinator will receive the referral and reach out to the patient to get scheduled in the time frame requested.
