CANDIDATE INFORMATION
Candidates must graduate from an ACPE-accredited pharmacy program with a doctor of pharmacy degree. Candidates must be eligible for Utah licensure and are expected arrive with a temporary pharmacist license or full Utah Pharmacist license on the first day of residency. The deadline for the resident to receive a full Utah Pharmacist License is September 15th of the residency year. Candidates must have completed a PGY1 Pharmacy Residency.

CANDIDATE APPLICATION AND SELECTION
 Applicants must register with PhORCAS to submit the following information by January 5th:
• Residency application
  and an Intermountain Employee application at www.intermountainhealthcare.jobs
• Curriculum vitae
• Three letters of recommendation
• Letter of intent highlighting your reasons for pursuing a residency
Selected applicants will be requested to visit Utah Valley Hospital for on-site interviews during January or February.

SALARY AND BENEFITS
Pharmacy residents are classified as full-time employees of Intermountain Healthcare. They are paid a competitive resident salary and are also eligible to receive a complete benefits package including retirement, health, dental and life insurance, and various staff discounts. Residents are allowed 15 days of vacation/sick leave and 10 holidays. Residents are afforded travel benefits to attend the ASHP Midyear Clinical Meeting and an applicable residency conference.

AT A GLANCE
Comprehensive pharmacy services are offered throughout the Intermountain Healthcare system. Residents will be given the opportunity to rotate through the different facilities to gain the best experience that Intermountain has offer. The purpose of this system-wide Intermountain Healthcare PGY2 Cardiology Residency is to train pharmacists to develop the skills necessary to practice as independent cardiology pharmacy specialists, equip them with leadership skills for the future, and provide opportunities to support the profession through education and research.

Utah Valley Hospital (UVH) is a 400-bed referral hospital located in Provo, Utah. The facility is a level II Trauma Center, a certified stroke center, and has a level III NICU which serves Utah County, central Utah, and southern Utah. There are two units specializing in cardiovascular services including a Cardiac Intensive Care Unit and Cardiac Progressive Care Unit, in addition to five cardiac catheterization labs, including a state of the art recently expanded EP lab, and a Post-Catheterization Recovery Unit. Additionally, there is an established outpatient cardiac rehab program and an existing relationship with Roseman University for teaching cardiology.

Intermountain Medical Center (IMC) is one of the largest hospitals in the Intermountain West and the flagship of Intermountain Healthcare. It is a level I Trauma Center and major adult referral center for six surrounding states and more than 75 regional healthcare institutions. The pharmacy residency program provides training throughout the five specialty hospitals on campus including Intermountain Heart Institute, Intermountain Cancer Center, Women and Newborn Center, Patient Tower, and outpatient clinics. The Medical Center is licensed for 444 beds.

Founded on the philosophy of “the child first and always,” Primary Children’s Hospital is the pediatric referral center for five states in the Intermountain West—the largest geographical service area of any children’s hospital in the US. The 289-bed facility is a level I Trauma Center and is equipped to care for neonates, children, and adolescents with complex illnesses and injuries. Primary Children’s Hospital is associated with the University of Utah School of Medicine Department of Pediatrics, enabling patients and staff to benefit from its research and clinical expertise.

OUTSIDE THE HOSPITAL
The area’s geography includes everything from the high desert to alpine terrain. Here, we combine world-class healthcare with unmatched outdoor and recreational opportunities.

With access to nine world-class ski resorts, many national parks, and spectacular red rock canyons, just minutes to hours from Intermountain facilities, our employees enjoy snowboarding, skiing, hiking, boating, fishing, river rafting, biking, and so much more.

The Intermountain area also offers cultural arts and professional sports venues to make the most of your time away from work. You can enjoy the world-class Utah Symphony and Opera, Ballet West, and a myriad of theaters, including the internationally acclaimed Shakespearean Theatre and Park City Film Festival. Sports enthusiasts enjoy the Utah Jazz, the Grizzlies, Real Salt Lake, and many other professional and collegiate sports teams.
