

# Connecting through PPE

## Making a Human Connection

### Have fun with this!

- Use a current photo or take one today before you don your PPE. Take the picture in bright natural light. Make sure you're **not** back lit by something bright.
- Write a fun fact about yourself or draw a picture in the box. Use permanent marker on the lamination and a purple Sani-wipe to disinfect and update it every day.

### Materials list & instructions

ID Type	Supplies	Instructions
<b>Face shield / PAPR</b>	Paper, printer, scissors, laminator, tape, markers, and Sani-wipes to erase marker	Same as normal PPE. Clean face shield when visibly soiled. Write a custom message daily.
<b>On gown</b>	Paper, printer, tape	Tape to front of gown. Dispose with the gown following normal PPE guidelines.
<b>Intro card</b>	Paper, printer, laminator, markers, and Sani-wipes to erase marker	Leave the card in the room. After removing the card from the room, disinfect before reusing or discard if not laminated.

### Tips

- 1 Use the provided templates to create your badge.
- 2 **Download and save a copy** to your desktop.
- 3 Keep fonts large and visible!
- 4 Right click on the  icon and select the option to **"Change Graphic"**, then **"From File"** select your image and **"Insert"** your image into the badge.
- 5 Modify the image so that it fits in the blue frame.
- 6 **Have FUN!**
