**HOW TO SAFELY REUSE AND DON YOUR N95**

**Safety notes:** When wearing an N95 respirator, do not wear face makeup of any kind as it interferes with the cleaning and disinfecting process. Facial hair around the face and chin may interfere with the seal. Remove or trim facial hair in these areas to ensure a proper seal.

1. **Perform hand hygiene**
2. **Put on clean gloves**
3. **Remove your N95 from brown paper bag, using elastic straps.**
   - Avoid touching the inside of your N95.
   - Place bag in a safe place to use again later.

4. **Inspect your N95 for safety issues:**
   - Nose piece is in place
   - Straps are intact; elastic bands are strong
   - No tears to material
   - No visible soiling

5. **Don your N95 safely.**
   - Top strap goes on the crown of your head
   - Bottom strap goes around the nape of your neck.

6. **Adjust your N95 to ensure it fits your face correctly.**
   - Perform a seal check.

7. **Remove and discard gloves**
8. **Perform hand hygiene**
