

ATTENTION

Cleaning workflow after Nebulizer Treatment

Wait time 1 Hour – Thorough Clean

Step 1: Wait 1 hour before entering the room to clean

Step 2: PPE required: Gloves

Step 3: Remove Waste

Step 4: Clean ALL surfaces with purple/grey/orange wipes

- Wipe surfaces and leave to air dry
- Use 1 wipe per square foot to ensure adequate contact time:
(will take several wipes to clean room)
 - Purple wipes: 2 mins
 - Grey wipes: 3 mins
 - Orange wipes: 4 mins
- Begin at entrance door and work around the room cleaning handles, thermostats and light switches
- Remove exam table paper
- Wipe down furnishings: exam tables, stools, mayo stands, chair frames, counters, front of cabinets, writing surfaces, shelves, telephones and tables
- Spray fabric chairs with hydrogen peroxide -10 min dry time (order #6100649)
- Wipe down sink, faucet, computer keyboard and mouse
- Cleaning floors and walls is optional
