What patients can you care for in your Emergency Department?

We can care for any patient that comes through our doors. We also have the resources and ability to stabilize and transfer to our Intermountain Healthcare network if a higher level of care is needed.

Do you have a NICU?

Our NICU is called a Special Care Nursery, which includes ventilator support and neonatal physicians available 24/7. This allows us to deliver babies from 32 weeks gestation to full term.

Does Layton Hospital support natural child birth?

Yes! We encourage the use of our natural birthing suites for mom's that meet the natural birthing suite criteria for low intervention birthing support.

Does Layton Hospital have an ICU?

Yes, we have an Intensive Care Unit at Layton hospital with hospitalists available 24/7.

LAYTON HOSPITAL IS NOW OPEN WITH FULL MEDICAL AND EMERGENCY SERVICES
