

# To prepare the no sew felt heart pillow kits:

## Materials:

- 2 pieces of felt
- Small amount of stuffing
- Scissors
- Erasable pen or chalk
- Sheet of regular 8 x 11 paper to draw your heart template

## Directions:

1. Draw a heart on the 8x11 sheet of paper. Then draw a second heart in the middle of the paper heart you first drew. Cut the first and second heart you drew to make a template. As pictured:
2. Next, cut out the felt heart shapes, following the bigger heart you first drew. You will want to either stack the two pieces of felt together so the hearts are the same size or cut them out individually.
3. Then with an erasable pen or chalk, trace the inside of the heart on the felt. By tracing the inside heart, you will then know where to stop cutting the strips.
4. Next, start cutting  $\frac{1}{4}$  inch strips around the outside of the heart. You can start at the bottom point of the heart if you would like to.
5. Then copy (or print) and insert the instructions on the next page into a plastic bag with a handful of stuffing and two felt hearts with the strips cut to make one no sew felt heart pillow kit.

## No Sew Felt Heart Pillow

1. Place the two heart sides together with the drawn heart on the inside.
2. Start tying the two sides together and stop before you get to the end.
3. Take the stuffing and stuff it inside the heart.
4. Finish tying the heart.
5. Enjoy your new heart pillow!

## No Sew Felt Heart Pillow

1. Place the two heart sides together with the drawn heart on the inside.
2. Start tying the two sides together and stop before you get to the end.
3. Take the stuffing and stuff it inside the heart.
4. Finish tying the heart.
