

Post-op Clinic Visit

What to expect during your clinic visit:

The child will have the following tests:

- Chest x-ray
- EKG
- Oxygen saturation level on and off oxygen
- Possible Echo

Following testing, the Cardiologist will meet with you to review test results, discuss medication changes and refills as appropriate, and to plan follow up appointments if necessary.

You may have medication changes and you may be advised to discontinue using oxygen.

Where to check in:

Check in at the Cardiology Clinic, located on Level 2, Station 2 in the Primary Children's Outpatient building.

How to prepare for your clinic visit:

- Take all normal medications unless instructed otherwise by your physician.

Arrive early:

Please arrive at least 15 minutes early for your post-op visit to allow for parking and paper work.

Other important information about your clinic visit:

Appointments can take longer than you might expect, please keep in mind that the duration of your clinic visit depends on the number of tests ordered. Average time in Post-op clinic is about 2 hours.
