Honoring

Nursing Excellence Award Winners

The Nursing Excellence Award honors nurses nominated by their peers for the exemplary way they embody our nursing philosophy and core values as they deliver extraordinary patient care. Eight nurses were recognized, one from each service line, with one overall winner at McKay-Dee Hospital.

40-year Caregivers

With a total of 1,004 years between them, 23 caregivers have worked over 40 years at McKay-Dee Hospital. Many of these employees have dedicated more than half of their lives to supporting healthcare for the Ogden community. These employees have seen a transition in processes, equipment, and the continued modernization of clinical care and supporting functions at the Hospital.

McKay-Dee Emergency Physicians

McKay-Dee Hospital Emergency Room Physicians come in contact with an average of 180 patients per day. It is both challenging and rewarding to help so many with a variety of ailments and emergencies. These physicians and their entire ER caregiver team provide clinically excellent care with professionalism and compassion. Though care frequently begins in the emergency room, our ER physicians are grateful for the clinical collaboration and team approach with colleagues throughout the hospital as we treat patients with acute needs.
