— 42nd Annual —
Current Concepts in Neonatal and Pediatric Transport Conference 2020

Objectives
Upon completion, the participant will be able to:
• Provide clinical care consistent with recognized national guidelines of practice for specially trained teams
• Demonstrate assessment and stabilization skills for the care and management of critically ill and injured children
• Outline management options for specific clinical disease states
• Discuss limitations and effects of the transport environment on the patient

About us
Intermountain Life Flight Children’s Services delivers specialty care for newborns, infants, children, and adolescents via jet, fixed wing, rotor wing, and ground ambulance. We are Utah’s only dedicated pediatric transport team.
