## Power Packing

Good nutrition is important to promote good health. The Power Packing eating plan is for individuals who need more calories and protein than the average person to stay healthy during cancer treatment, while recovering from surgery or illness, or when malnourished.

## How do I power pack my favorite foods?

Some recommendations include:

## Cheese

- Melt on sandwiches, meats, fish, vegetables, eggs, tortillas, bagels, bread, or muffins
- Grate into sauces, casseroles, mashed/baked potatoes, rice, or noodles

## Cottage cheese

- Choose regular instead of low fat and add to:
- Fruits or vegetables
- Casseroles
- Yogurt
- Blend and use:
- As a dip
- On potatoes

## Cream cheese

- Spread on sandwiches, fruit slices, toast, bagels, crackers, muffins, or cookies
- Add to egg dishes or vegetables
- Use in sauces
- Add to casseroles

## Whole milk or cream

- Use whole milk instead of $2 \%$ or skim milk
- Use in place of water in soups, hot cereals, instant puddings, pancake mix, or hot chocolate
- Serve cream sauce with vegetables
- Add powdered milk to regular milk, eggnog, milkshakes, soups, casseroles, meatloaf, cookie dough, cakes, muffins, or bread batters
- Add cream to sauces
- Use evaporated milk in a sauce or in cooking

## What is Power Packing?

Main table paragraph style fact sheet. Main table paragraph style fact sheet.
Power Packing increases the amount of calories and protein in food without increasing the serving size. The easiest way to power pack foods is to add fat, sugar, and other carbohydrates to your favorite meals, along with eating more high-protein foods. Calories from fat and carbohydrates are necessary for energy. Protein helps damaged tissue to grow and helps repair damage done by cancer or some treatments.
Even if you don't feel like eating, your body needs you to take in calories and protein.
These suggestions may help:

Drink fluids 30 to 60 minutes before or after meals, but NOT at mealtime. Fluids taken with meals can limit available stomach space for food and make you feel too full.*

Eat small, frequent meals (6 to 8 times a day). Eating more often and more slowly is easier on your body than eating 3 large meals.

Dine in a pleasant place with good company. It may help you eat more.

Use color and variety to make meals look more appealing.

Have nutritious snacks on hand to eat whenever you are hungry.

Exercise lightly before a meal (with your doctor's approval) to boost your appetite.

Eat your favorite foods at any time.
Take advantage of times when you feel hungry by eating.

[^0]
## Ice cream

- Compare labels to choose higher-calorie products
- Use in beverages such as sodas, supplements, and fruit whips
- Add to fruits, gelatin desserts, or pies
- Sandwich between cookies, cakes, or graham crackers
- Sprinkle with nuts, seeds, fruit, or candy; top with fudge sauce and whipped cream

## Butter

- Melt into hot cereals, soups, casseroles, mashed/baked potatoes, rice noodles, pasta, cooked vegetables, pancakes, sauces, or gravies
- Spread extra on toast, rolls or bread (best done when the bread is hot)
- Add to peanut butter sandwiches
- Add to mashed potatoes and serve with gravy

## Peanut butter

- Spread generously on sandwiches, toast, muffins, French toast, pancakes, fruit slices, crackers, carrot or celery sticks
- Add to sauces, milkshakes, smoothies, cookie and muffin batters, or doughs
- Swirl through ice cream, yogurt, or pudding

## Eggs

- CAUTION: Raw eggs are NOT recommended because of the risk of contamination
- Add chopped, hard-cooked eggs to salads, dressings, vegetables, casseroles, or creamed meats
- Add an extra egg to recipes such as custards, French toast, muffin and pancake batter, or dough
- Cook omelets with cheese and diced meat or bacon

## Meat and fish

- Add cooked meat to vegetables, salads, casseroles, soups, omelets, scrambled eggs, sandwiches, stuffing, and baked potatoes
- Bread or deep fry meat
- Serve meat with gravy or cream sauce

## Breads, cereals, and pasta

- Consider having cinnamon toast, pancakes, waffles, muffins, biscuits, or French toast for breakfast
- Serve crackers with cheese, butter, meat slices, peanut butter, or cream cheese
- Choose granola cereals for more calories. Eat with whole milk or yogurt. Add raisins, chocolate chips, gum drops, or mixed nuts for extra calories
- Use sauces when serving pasta
- Add butter to pasta and rice dishes

## Fruits and vegetables

- Drink fruit juices instead of water
- Choose fruits packed in heavy syrup over fruits packed in light syrup or their own juice
- Choose dried fruits as they are a concentrated source of calories
- Scoop sour cream onto fresh fruit and top with brown sugar; let sit for a while in refrigerator before serving
- Top with whipped cream or marshmallow cream
- Add butter to warm vegetables
- Eat fresh vegetables or fruit with salad dressing

## Mayonnaise

- Add to salad dressing
- Spread on sandwiches and crackers
- Make vegetable dips
- Use to make meat, fish, or vegetable salads

## Honey, sugar, and jam

Add to cereals, milkshakes, fruit, desserts, yogurt, toast, muffins, French toast, pancakes, cookies, or hot drinks

## Healthy fats

Olives, peanuts, nuts, and avocados are good sources of healthy fats

## Supplements

Ready-to-use liquid supplements are available in most large grocery or drug stores. They can be used for snacks or to supplement meals. They are a good source of protein, carbohydrates, fat, vitamins, minerals, and are convenient to use.
Examples include products like:

- Boost
- Ensure
- Resource 2.0
- Carnation Instant Breakfast
- Muscle Milk
