

# McKay-Dee Hospital Foundation In-kind Donations

---

Thank you for your interest in making a donation to the McKay-Dee Hospital Foundation to benefit our community and those in need of our services. Below you will find a list of items that are currently needed for our patients in the hospital. The “Greatest Need” items are those we are currently most in need of. All items need to be new because of infection prevention standards. We also understand that some individuals would rather donate cash to support their charitable efforts, and we welcome those donations also. If you have items you wish to donate that are not on the list, please call first, as we have restrictions on certain items.
