Things to Remember When Decorating Your Tree

To preserve/maintain the purpose and integrity of this fundraiser, memorabilia included on a tree would be defined as "something valued or collected within a popular field of interest."

- *Use NEW artificial trees only.*
- *Each tree space measures 9 ft. wide by 7 ft. deep.*
- *Christmas themed trees sell best.*
- *Difficult or hard to sell trees include:*
 - Non-Christmas themed trees
 - Non-Christmas colored trees, such as pink, blue, purple, black
- *Lights must be New and Wired onto Tree if not Pre-lit.* For safety, use lights with UL listing. To reduce risk of fire, use a minimum number of lights (no more than 75 to 100 lights per foot). **DO NOT Overload your Tree with Lights.** Read instructions on the light box for specific information. **Bring a heavy-duty extension cord (6-9 ft.) and a power strip that will be sold with the tree.**
- *Attach Replacement Bulbs and Fuses to the Tree Skirt.*
- *Bring extra strands of lights* on Decorating Day for replacements if needed.
- *All Decorations must be nonflammable (No Straw)*
- *Some Words from the Fire Marshall* To avoid an electrical overload (fire) be careful of the number of items displayed around your tree requiring electricity.
- *Furnish a Tree Skirt* Attractive tree skirts and a few accessories help the tree to sell. If you use batting as a tree skirt, fire-retardant batting must be used.
- *All Decorations must be wired onto the tree and the metal ornament cap must be glued onto every ornament for successful delivery.*
- *We do not have Doors or Easels* available for your display. Doors are not allowed! Wreath stands under 48" can be used to display wreaths.
- *All Items Under and Around the Tree will be sold with the Tree.* All trees and accessories become the property of Festival of Trees upon completion and will be priced and sold as such.

- ***Trees Dedicated to an Individual*** If your tree is dedicated to an individual, you may bring a **photo** of one 8"x10" photo to be placed with the tree. The exterior dimensions of the matte or frame cannot exceed 11"x 14". An easel will be provided to display the photo. When choosing a photo to display, be mindful of those who will be viewing it. **Pictures of loved ones taken after death cannot be used.** Please include the dedication name on the registration form. ***No other personal photos will be allowed on or around the tree. (Only one picture per tree space is allowed.)***
- ***No weapons are allowed*** to decorate the tree, including guns, spears, knives, certificates for weapons, or the appearance of a weapon.
- ***Multimedia Presentations must be approved by Large Tree Chairwoman and will not be turned on during Festival Week.***

Things to Remember When Decorating Your Tree Cont...

- ***No Advertising or Inappropriate Material.*** Festival of Trees is a benefit for children at Primary Children's Hospital. Do not use your tree to advertise a business or product.
- Be mindful that the display will be visible from all angles, including the back. Be considerate of neighboring tree displays. Festival of Trees reserves the right to remove objects that are causing obstruction.
- If you include a story about your tree, it will be attached to the back of the tree sign. Other written material on or around your tree that is not defined as art will not be permitted. In order to preserve and maintain the purpose and integrity of Festival of Trees, art included on or around a tree must qualify as a "*decorative or illustrative item within a popular field of interest.*"

Preparing Your Tree to be Delivered

When Festival of Trees is over, your tree will be delivered to its new home. Great care is taken in delivering your tree. Because Christmas trees are not designed to be transported, these requirements will ensure that your tree does not bend, break or fall apart.

- **Ornaments and Decorations.** Glue the metal ornament cap onto every ornament. Then wire every ornament, garland, and decoration securely to the tree.
- **Fake snow** and other loose items used as a floor covering (without plastic underneath) will NOT be delivered with the tree.
- **Reinforce Your Tree.** *All trees* must have their trunks reinforced.
 - **Rebar:** One continuous piece must be attached on the outside of the tree trunk. Rebar should be from the bottom of the tree stand to 6” above the top joint of the tree and secured with hose clamps. Do NOT use multiple pieces in shorter lengths. Rebar should not extend above the top of the tree topper.
 - **Hose Clamps:** Hose clamps should secure the rebar to the tree stand, above and below each joint as well as secure sections and joints to prevent them from separating during delivery.
 - Most common sizes are 1-3/4 to 2-3/4 and 2-3/4 to 3-3/4
 - **PVC:** If the trunk is hollow, you *must* insert one piece of continuous PVC pipe inside the trunk. It should extend from the bottom of the tree stand to the top of the tree, or as far as possible.
 - **Pointed Tree Trunk:** If the tree trunk base is pointed, cut off the point with a hacksaw. This will prevent the tree from bending at the top or breaking at the base during delivery.
 - **Any exceptions must be approved by Large Tree Department Chairwoman or the Tree Delivery Department Chairwoman.*
 - **Decorator must provide PVC pipe, rebar, and hose clamps.**

Check out our video online at www.festivaloffreesutah.org under the Large Tree section. This video will give you a close look at how to re-inforce your tree to ensure a safe and successful delivery.

- **Tree Delivery.** Proper reinforcement of your tree is important. Remember these trees are being delivered to homes and businesses. Trees need to fit through a regular sized door.
