ADMISSION CRITERIA

Prior to admission to Dixie Regional’s Neuro Specialty Rehab, each patient is carefully assessed to determine if our program is right for them. This FREE personal screening may be conducted at home, in the physician’s clinic or in the hospital. A three-day pre-hospital stay is not required for admission. To be eligible for admission, you must:

• Require daily physician care and 24-hour rehab nursing
• Need at least two forms of therapy (physical, occupational and/or speech)
• Be able to tolerate three hours of therapy per day, five days a week
• Have the potential to improve physical and functional skills
• May need pre-authorization from insurance prior to admission to rehab.

Our services are covered by most major medical insurance carriers, including Medicare/Medicaid.

HOW TO GET STARTED

To find out if you or someone you love is a good candidate for our program, please call us at 435.688.4700 and ask for the admissions coordinator. When you call, please be ready with the patient’s name and location or home address, the name of the patient’s referring or family physician, and the patient’s insurance/Medicare information.
HELPING YOU BACK TO LIFE

OUR PATIENTS

Patients with a wide variety of diagnoses can benefit from our comprehensive rehabilitation program. Some examples include:

• Stroke
• Arthritis
• Congenital deformities
• Major multiple trauma
• Brain injury
• Amputation
• Spinal cord injury
• Major orthopedic injuries
• Joint replacements
• Degenerative neurological disorders, including Multiple Sclerosis (MS), Polyneuropathy, Muscular Dystrophy, Parkinson’s Disease, Guillain Barré, and other progressive impairments
• Others with decreased physical functioning may also be considered for admission

OUR MISSION

The mission of the Neuro Specialty Rehab at Dixie Regional Medical Center is to help patients get back to life — helping you return to meaningful activities with family and friends in your home and the community. Our commitment to rebuilding independent lives is accomplished through:

• Individualized treatment plans
• Emphasis on the skills required for normal movement
• Family and patient education and counseling to prepare for the return home
• Home evaluations and assistance with community re-entry

OUR FACILITY

The Neuro Specialty Rehab is located on the fifth floor of the Dixie Regional 400 East Campus and includes 16 private patient rooms, a common dining room with a spectacular view and compassionate staff. Patients increase their independence through the use of two therapy gyms and an independent living apartment where they can practice their skills.

CARE CENTERED ON YOU

Our skilled clinical team works with you and your family to develop an individualized treatment plan based on your goals and needs. The team meets weekly to discuss progress and revise goals if necessary. Our care team includes:

• A physician that is board certified in Physical Medicine and Rehabilitation
• Physical and occupational therapists trained in neurodevelopment techniques
• A speech therapist
• A social worker
• Nursing staff specifically trained in rehabilitation nursing
• A neuro-psychologist
• A recreation program specialist
